TEST TECHNICIAN – Full Time

1st shift position with a schedule of 8:00am to 4:00pm Monday through Friday. Additional overtime may be required. Weekends on occasions.

JOB RESPONSIBILITIES/REQUIREMENTS:

The Test Technician performs various testing on customers products. Such as dropping testing, vibration, shock, temperature, humidity using equipment that simulates these conditions.

If you like to work with your hands, stay busy, have a great attitude and a willingness to learn, there may be a perfect position for you at RMTS.

This position prefers you have the knowledge and hands-on experience of operating environmental simulation test equipment. The specific equipment at RMTS is temperature humidity chambers, vibration equipment including electro-dynamic and mechanical shakers, halt/hass, salt fog, drop tester, transportation simulator, tensile/compression tester and the related data acquisition and instrumentation.

Not sure what some of these items mean? That's okay! Many of the duties can be trained onsite with the use of detailed work instructions.

Required Skills and Knowledge:

- Basic math and measuring skills
- Ability to read (or willingness to learn to read) specifications
- Ability to read and understand work instructions
- Experience using basic hand and power tools
- High school diploma or GED
- Mechanical aptitude
- Proven record of career growth in previous positions
- Self-motivated and willing to learn new techniques.
- Ability to work with a team, good written and verbal communication skills.
- Ability to manage assigned tasks, meeting deadlines.
- Demonstrate careful attention to quality and detail.
- Ability to operate various hand tools, power tools, and test instruments.
- Excellent communication skills to be able to interact with customers and co-workers in a professional manner.
- Knowledge of relevant computer applications (MS Office, Word, Excel, Power Point).
